

## PRODUCT DATA SHEET

**“CW600”**  
(Formerly 611)  
“USDA Approved”

### **Product Description:**

Designed for all areas of food plants where grease, fats and other bi-products of meats processing and food production occur. Use for garbage trucks, dumpsters, inside of reefers, construction equipment, engines and frames. Effective one-step cleaner for pre-painted trailers and is outstanding for kitchen hoods, ducts and cooking areas. Use for cleaning concrete floors and driveways and works well on aluminum gutters and fascia's.

### **Instructions for use:**

Use with pressure washers. For pre-soaking applications dilute to a 10:1 ratio minimum. When using chemical injection dilute to a ratio 20:1 to 50:1 (at wash nozzle). Rinse surface thoroughly with liberal amounts of water.

### **Caution:**

Do not use on anodized or mirror polished aluminum

Use in well-ventilated areas

Airborne concentrations of mist, vapor or spray can irritate and respiratory system

Refer to MSDS for handling procedures and precautions

Keep out of reach of children

For industrial use only

### **Technical Data:**

Appearance ... Clear

Ph Concentrate ... 12.0

Specific Gravity ... 1.10

Completely soluble in water
